

HOW TO CONNECT TO WQE REGENT ROAD WIFI

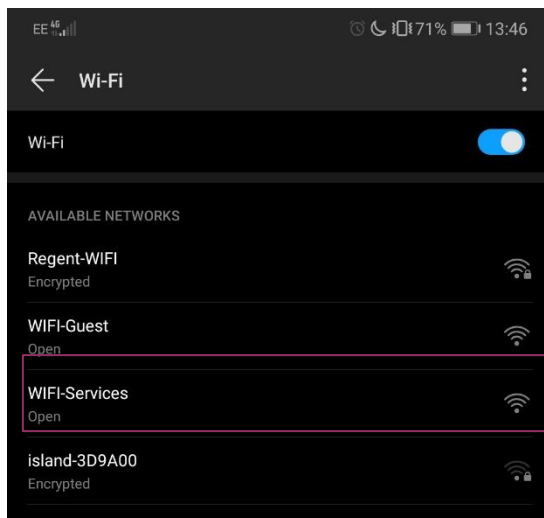

IT Services
REGENT ROAD

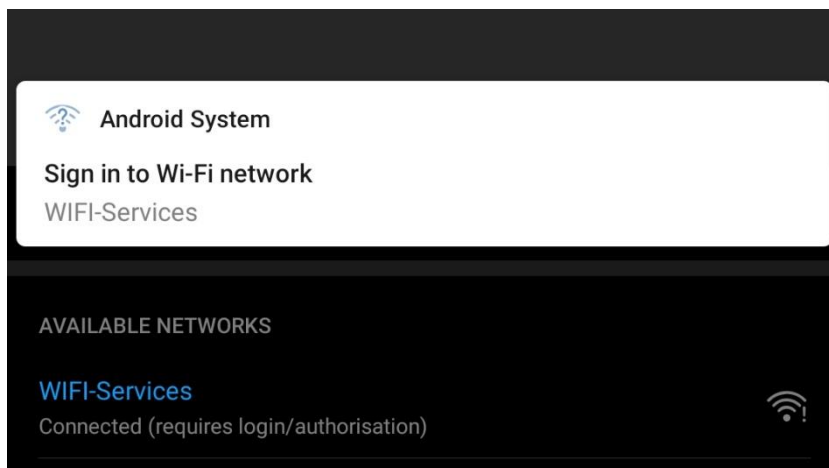

1. Firstly enter your settings on your phone and go into the wireless settings.

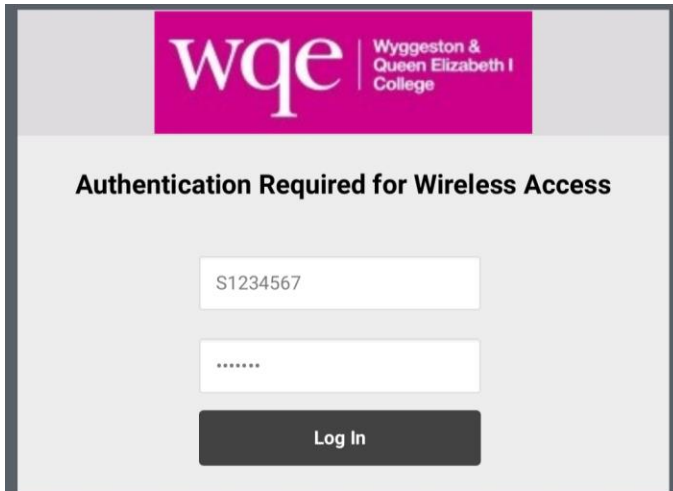

2. Turn your WIFI on and look for “WIFI-Services” and connect to it.

3. When connected you will be prompted to “Sign-In” which you should then click and wait for it to open in your browser.

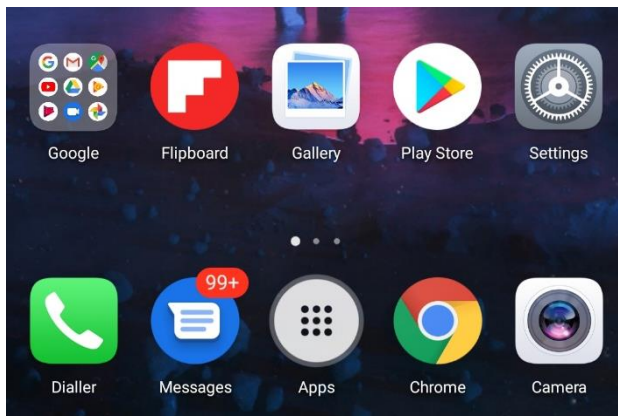

4. You should now see a windows similar to the image below, just enter your credentials, like you would on a computer, and click “Log In” at the bottom.

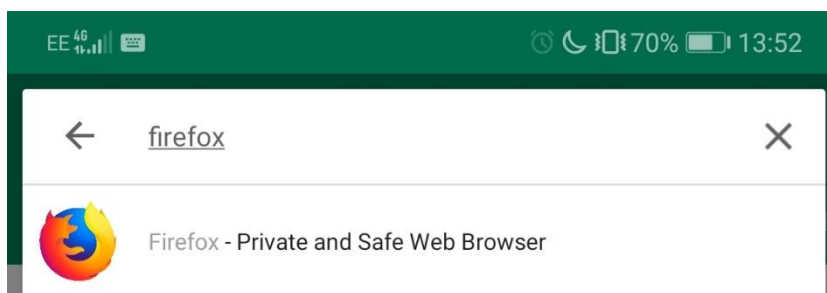

Problems Connecting? Try this!

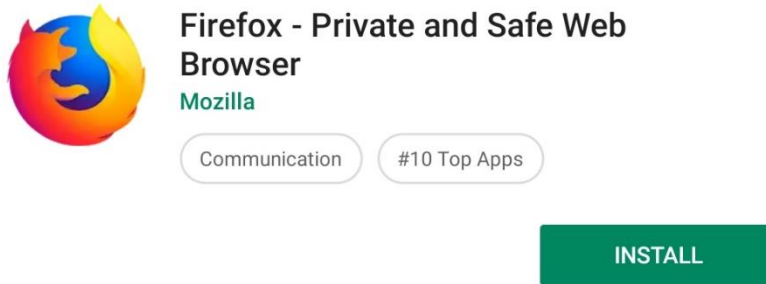

1. Open the App store for android it is called google play as shown below.

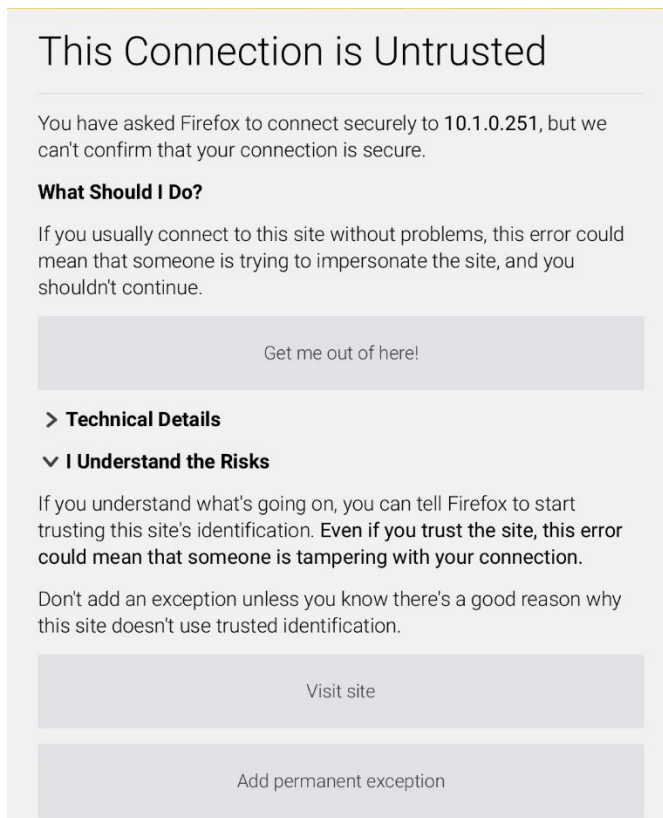

2. Click Search and type in “Firefox” and click the first result which should show as below.

3. Click install and wait for it to download and install, then you will be able to click open.

4. When open try to go to <https://www.google.co.uk> and the below screen should show. Click  and then “Add Permanent Exception” you should now see the login screen.

Any Problems Contact a member of IT Services for assistance.
